

PUBLIC NOTICE

Try to keep a distance of 2m to others at all times.

Wearing a mask is mandatory.

Don't forget the barrier gestures.

Avoid direct hand contact.

The success of the exit strategy depends on our common commitment.

Let's be responsible:

Even if the confinement is no longer a legal obligation, it is nevertheless recommended to limit my interpersonal contacts and my movements.

Let's show solidarity:

My mask only protects me to a limited extent, but my mask protects the people around me. Let us remember to especially protect vulnerable people.

Let's be disciplined:

Personal responsibility and solidarity with others are additional barrier gestures. So let us not forget the traditional barrier gestures (keep a distance of 2m, wash my hands, cough into my elbow, etc.).
